TV SHOW: Mad Men, Gilmore Girls
MOVIE: Pride and Prejudice
SONG: Anything from the Beatles or the Eagles
TEAM: LA Dodgers!

HOBBIES

Sewing, quilting, traveling
and cooking for our family
(but not baking - I don't bake well!)

TWO FUN FACTS!

I drive our 32-foot Class C RV on weekend trips. My husband, Arthur, is my co-pilot. The RV's name is Polyanna (poly for math terms like polygon & polynomial). Favorite places to visit include Mailbu, Newport Dunes, Palm Desert and Temecula/Pechanga (fun to go wine tasting!)

My first career was as a computer programmer/systems analyst for 20 years, working for Northrup on the B-2 Stealth Bomber program, PDA Engineering and The Capital Group. When I decided to switch careers to college teaching, I had to go back to school to earn my M.A. in Mathematics. Because I knew this was my passion, I was determined to make it happen.
