**November 2022**

## **2022-2025 Student Equity Plan Executive Summary**

Citrus College, a Hispanic-Serving Institution, provides innovative educational opportunities and student support services that lead to the successful completion of degrees, certificates, and transfer. The College embraces equity and accountability through measurable learning outcomes, ethical data-driven decisions, and student achievement.

Citrus College makes a distinction between equality and equity and is committed to ensuring the tenets of equity are meaningfully woven into institutional plans, procedures, and policies. The College strives to provide educational equity by creating a supportive culture where each student can fully develop their potential, which includes structuring learning environments to promote full academic engagement of students as well as providing disproportionately impacted (DI) students with additional support and opportunities they may need to achieve success and complete their educational goals.

Increasing student success and completion is the primary goal of the College's 2021-2026 Strategic Plan. Diversity and equity are prominent among the focus areas of the strategic plan and, together with specific activities, are mapped to the 19 measurable objectives emphasizing enrollment, course completion, persistence, degree and certificate completion, transfer, and closing achievement gaps. The College has an Annual Implementation Plan for Strategic Plan objectives and strategies which are assessed and reported to the Board of Trustees twice annually. This additional layer of accountability will engage the College community in monitoring the success of strategies outlined in the 2022-2025 Equity Plan.

The 2022-2025 Student Equity plan was developed by faculty, staff, students, supervisors, and managers with a race-conscious goal and intentional braiding of institutional plans and funding. Input from faculty across all divisions on instructional support strategies for the DI student populations was collected, and collegewide input was gathered through a forum. The College will also be integrating DEIA+ and student equity efforts as evident throughout the student equity plan. The College defines diversity, equity, and inclusion as follows:

- Diversity refers to all aspects of human difference, social identities, and social group differences, including but not limited to race, ethnicity, creed, color, sex, gender, gender identity, sexual identity, socio-economic status, language, culture, national origin, religion/spirituality, age, (dis)ability, military/veteran status, political perspective, and associational preferences. Socially, it refers to the wide range of identities, including different ideas, perspectives, and values.
- Equity refers to the fair treatment, access, opportunity and advancement for all people, while at the same time striving to identify and eliminate barriers that prevent the full participation of some groups. Equity is different than equality in that equality implies treating everyone as if their experiences are exactly the same. Being equitable

means acknowledging and addressing historic and current structural inequalities, with respect to underserved and underrepresented populations, that advantage some and disadvantage others.

- Inclusion refers to a campus community where all members are and feel respected, supported, valued, have a sense of belonging, and are able to participate and fully achieve their potential. While diversity is essential, it is not sufficient. A college can be both diverse and non-inclusive at the same time, thus a sustained practice of creating inclusive environments is vital for success.

### Summary View of Disproportionately Impacted (DI) Student Groups

The California Community College Chancellor’s Office utilized the Student Success Metrics (SSM) Dashboard as the source for the disproportionate impact data. The Percentage Point Gap minus one (PPG-1) methodology was implemented for assessing disproportionate impact among each of the subgroups. Table 1 provides a summary view of the disproportionately impacted student groups as identified for the 2022-2025 Student Equity Plan.

**Table 1: Disproportionate Impact for 2022-25 Student Equity Plan Metrics**

### Target Outcomes for DI Student Groups

The summary table above provides a quick view of groups that have been identified as DI for each equity metric. Per guidelines for the plan, one DI student population will be the focus for as many metrics as possible. As LGBTQ+ students are DI in Term-to-Term Persistence, Completion of Both Transfer-Level Math and English, Degree and Certificate Completion, and Transfer, they will be the focus DI student population for these four metrics. Asian students will be the DI student population of focus for Successful Enrollment. Although the plan will focus on these two DI student populations, efforts will be made to eliminate equity gaps for all DI student populations that have been identified.

Measurable target outcomes have been developed for the two DI student populations of focus. Table 2 provides the outcome rate for each DI group, all cohorts student outcome rate, and the number of students who must be successfully impacted in order to incrementally reach the stated outcomes in the three years of the plan.

**Table 2. Target Outcomes**

Metric	DI Population	DI Pop. Outcome Rate	All Cohort Students Outcome Rate	Minimum # of Students Needed to Close Equity Gap	Target Outcomes Increase By...
<b>Successful Enrollment</b>	Asian students	25%	37%	60 additional students	Yr 1: 4% (19 students) Yr 2: 4% (19 students) Yr 3: 5% (23 students)
<b>Term-to-Term Persistence</b>	LGBTQ+ students	60%	73%	16 additional students	Yr 1: 4% (5 students) Yr 2: 4% (5 students) Yr 3: 5% (6 students)
<b>Completion of Both Transfer-Level Math and English</b>	LGBTQ+ students	18%	25%	9 additional students	Yr 1: 3% (4 students) Yr 2: 3% (4 students) Yr 3: 4% (5 students)
<b>Vision for Success Completion (Degree/Cert Completion)</b>	LGBTQ+ students	10%	18%	8 additional students	Yr 1: 2% (2 students) Yr 2: 3% (3 students) Yr 3: 3% (3 students)
<b>Transfer</b>	LGBTQ+ students	6%	26%	7 additional students	Yr 1: 5% (2 students) Yr 2: 5% (2 students) Yr 3: 10% (3 students)

**Initiatives to Achieve Student Equity Goals**

The College has three strategic goals for the student equity plan to transform current processes, policies, practices, and culture into a more equity-minded community: 1. Implement equity-minded data inquiry and assessment to reduce equity gaps, 2. Assess student needs and improve institutional student-centered efforts, and 3. Develop coordinated and sustained equity-minded professional development across all areas of the College. Achieving the three strategic goals of the student equity plan will require collegewide reflection and learning, infrastructure development, and ongoing progress analysis. A plan will be developed to make all disaggregated metric data accessible and understandable with guidelines to approach the data through an equity lens. DI student and employee focus groups will be collaboratively conducted to aid in the creation of intentional and targeted resources and relevant professional development.

The College views the work to eliminate achievement gaps as dynamic and envisions continuous improvement and refinement. The College acknowledges that modifications and additions to the strategies may be made as needs shift. Table 3 provides a brief outline of the planned initiatives to achieve the student equity goals. Additional details on each initiative and the areas collaborating on the initiatives are described in the full student equity plan.

**Table 3: Initiatives to Achieve Student Equity Goals**

Metric	Initiatives
<p><b>Successful Enrollment</b></p>	<ol style="list-style-type: none"> <li>1. Develop a plan to make disaggregated college applicant and enrollment data accessible and understandable with guidelines for approaching data with an equity lens.</li> <li>2. Analyze data to initiate enhancements to K-12 partnerships and dual enrollment marketing efforts for enrolling in the college.</li> <li>3. Review and edit the college website with current Asian students as critical contributors to help identify needs.</li> <li>4. Improve communication with targeted messages, resources, services, and outreach.</li> <li>5. Create professional development based on employee and Asian student focus groups.</li> </ol>
<p><b>Term-to-Term Persistence</b></p>	<ol style="list-style-type: none"> <li>1. Develop a plan to make disaggregated term-to-term persistence data accessible and understandable with guidelines for approaching data with an equity lens.</li> <li>2. Host an informational booth at the Student Resource Fairs to ensure students are aware of the resources available in the CTC.</li> </ol>

Data from the Chancellor's Office Student Success Metrics (SSM) Dashboard was utilized to assess progress on closing equity gaps for DI student populations from the 2019-2022 Student Equity Plan. As depicted in the legend and tables below, DI student populations highlighted in green indicate progress was achieved. Some progress was attained for DI student populations in all five metrics, with the most numbers of DI student populations with progress observed in the Completion of Both Transfer-Level Math and English and Degree and Certificate Completion metrics. In addition, progress was observed for Black/African American females in four of the metrics.
