February 25, 2022

Dear Colleagues,

Thank you for a great beginning to our spring 2022 semester.

As you may already know, the Los Angeles County Department of Public Health has issued a revised COVID-19 health order. Effective today, Friday, February 25, 2022, the county is allowing “establishments, businesses and venues” to make indoor mask wearing optional for fully vaccinated individuals.

While it is a relief to know that the county’s COVID-19 positivity rates, number of cases, deaths and hospitalizations are declining, it is imperative that we do what we can to limit the potential spread of COVID-19 cases on campus. In consultation with various campus leaders and advice from our medical experts, the Citrus College indoor mask requirement will remain in place at this time. As such, all students, employees and members of the public must continue to wear an appropriate medical grade mask while inside any college building or facility. Citrus College will continue to closely monitor the status of the pandemic and will communicate any changes to our safety protocols as appropriate in the future.

Once again, I want to thank each of you for following our COVID-19 health and safety protocols. By embracing these measures, we can continue to provide our campus community with a safe learning and working environment, while ensuring access to the quality instruction and services that we are known for.

Sincerely,

A handwritten signature in black ink, appearing to read "Greg Schulz".

Greg Schulz, Ed.D.
Superintendent/President
