**Do you have a smartphone?**

Why not use it for safety purposes and turn your smartphone in to a personal safety device by downloading Citrus College Campus Safety's mobile app, **Citrus Guardian**?

1. Search for **Rave Guardian** on the Apple App Store (for iPhones) or Google Play Store (for Andriod phones). Download the free Rave Guardian app and when prompted, enter your Citrus College e-mail address. Upon confirmation as a Citrus College student or employee, the Rave Guardian app will become **Citrus Guardian**.

  

2. Once installed, **Citrus Guardian** can be used to protect yourself and others by using the following features of the app:

**Text-a-Tip:** Allows student/employees to send text tips, including photos, to Campus Safety. "If you see something, say something."

**Virtual Escort:** Notify Campus Safety in the app to check in on you if you are alone or in an unfamiliar place. Set a timer. If your timer expires, and you are on campus, Campus Safety will be notified and will respond to your phone's GPS location immediately.

**On-Campus Emergency (panic button):** Easy emergency communication. Call Campus Safety with one-button access if you are on campus and need help.

**Call Directory:** Users can easily find assistance and resources through the directory of important/useful numbers.

**Our Commitment to Your Safety**
As part of an ongoing proactive safety plan, the **Citrus Guardian** app adds an additional layer of safety and is provided as part of Citrus Community College District's commitment to the safety and security of our campus. Department of Campus Safety looks forward to its continued partnership with the Citrus College community, while providing a safe and secure learning environment.

**For questions or assistance regarding Citrus Guardian, please contact Campus Safety at (626) 914-8611 or email [campussafety@citruscollege.edu](mailto:campussafety@citruscollege.edu)**
