

Citrus College Diversity, Equity and Inclusion Task Force

Superintendent/President's Message

As a community college leader, I am reminded of the power of education to enlighten, educate and transform individual lives and society. Now, more than ever, the Citrus College community is challenged to uphold the core values of education and of our institution. We are further called upon to role model and educate those students in our charge in an effort to promote social justice and instill the core ideals which we as an institution value.

~ Geraldine M. Perri, Ph.D., serving as superintendent/president from 2008 to 2021
