

Citrus College

Computer Science

If you are interested in computer science and its implications in today's business world, this program will help prepare you for a technical or management career in computer systems analysis, programming or network design.

The Computer Science Program is designed for the student who wishes to transfer to a four-year university and complete a bachelor of science degree in computer science.

This program consists of computer, math and science courses, as well as relevant transferable courses. You will have access to the technical equipment you will use in a professional position upon completion of your studies.

The continued impact of computers and information technology on our society has produced the need for

highly qualified people to develop new hardware and software systems. Some of the possible employment opportunities in this area are computer systems analyst, computer scientist and database administrator. These individuals diagnose problems and develop solutions.

The Computer Science Program will provide the student with a solid foundation in the theory and practice of modern computer programming.

- Transferable
Transfer requirements vary from college to college. See a counselor to set or review an educational plan.
- Associate in Science Degree

- Day Classes
- Evening Classes
- Assessment test required for associate degree, certificate of achievement and transfer students.
- Financial aid is available to qualified students. Complete and submit FAFSA to determine your eligibility.

College Admission

Admission to Citrus College is open to high school graduates and any person 18 years of age or over.

To enroll, submit an application for admission online at:
<https://wingspan.citruscollege.edu>

New students enrolled in five or more units and planning to earn an associate degree, a certificate of achievement, or a skill award must take an English and math skills assessment. In addition, new students who plan to enroll in English, mathematics or reading classes must participate in the skills assessment process.

Concurrent Enrollment for High School Students

Some programs and classes are available to current junior and senior high school students. Interested students should contact their high school counselor or the college's Admissions and Records Office.

Associate Degree

For an associate degree, a student must complete 60 degree-applicable units of work and fulfill specific general education requirements, including electives and physical education. A cumulative grade-point average of 2.0 ("C") or above is required.

For detailed information, refer to the college catalog or consult a counselor.

Transfer Requirements

Transfer requirements can be integrated with the associate degree option so that you may receive a degree at the time of transfer. **See a counselor for specific requirements for your major. Course requirements may vary among colleges.**
