

Citrus College

Information Technology

Citrus College is an authorized testing center for IT vendors such as Cisco, Microsoft, CompTIA and others. Upon completion of each course, you will be eligible to test on campus for immediate certification. This type of certification opens the door to an exciting career in computer technology.

Information Technology (IT) plays a key role in our global economy. There are more opportunities than ever for the creative individual to find challenging and rewarding work. A substantial percentage of the current jobs in the United States are now in the IT field, and the Citrus College IT training program will lead you to a career in today's fast growing, technology-based business world.

Industries employing the largest numbers of IT technicians are professional and commercial equipment companies, computer and data processing services, personnel supply services, and colleges and universities.

Our faculty possesses a wide range of expertise, and they have a strong commitment to your education. They are readily available to give you the one-on-one attention you need to succeed in the classroom.

Unlike many other programs that teach skills in just one product, Citrus' Information Technology certificate of achievement is vendor-neutral and will prepare you to work with products designed by hardware and software producers throughout the industry. You will attain a broad base of knowledge and competency in core hardware and operating system technologies, including installation, configuration, diagnosing, preventative maintenance and basic networking.

- Transferable
Transfer requirements vary from college to college. See a counselor to set or review an educational plan.
- Associate in science degree
- Certificate of achievement
Information Technology
- Certifications available:
A+
Network+
Server+
Security+

College Admission

Admission to Citrus College is open to high school graduates and any person 18 years of age or over.

To enroll, submit an application for admission online at:
<https://wingspan.citruscollege.edu>

New students enrolled in five or more units and planning to earn an associate degree, a certificate of achievement, or a skill award must take an English and math skills assessment. In addition, new students who plan to enroll in English, mathematics or reading classes must participate in the skills assessment process.

Concurrent Enrollment for High School Students

Some programs and classes are available to current junior and senior high school students. Interested students should contact their high school counselor or the college's Admissions and Records Office.

Associate Degree

For an associate degree, a student must complete 60 degree-applicable units of work and fulfill specific general education requirements, including electives and physical education. A cumulative grade-point average of 2.0 ("C") or above is required.

For detailed information, refer to the college catalog or consult a counselor.

Transfer Requirements

Transfer requirements can be integrated with the associate degree option so that you may receive a degree at the time of transfer. **See a counselor for specific requirements for your major. Course requirements may vary among colleges.**
