## Citrus College Water Technology Program

The Water Technology Program at Citrus College is a program designed to prepare individuals for careers in the water industry and for those who are seeking opportunities for promotion within their organization. Classes are also offered to prepare employees for the T-1 through T-5 Water Treatment Operator Certification Examinations given by the California Department of Public Health, as well as preparation for the D-1 through D-5 for Distribution Operators. Students successfully completing a prescribed number of classes are eligible to receive a Citrus College Water Technology Certificate of Achievement.
