AP 4228 COURSE REPETITION – SIGNIFICANT LAPSE OF TIME

References: Title 5 Sections 55000, 55003, 55040, and 55043

Students may be permitted to repeat courses in which a “C” or better grade was earned where:

- The District has established a recency prerequisite for the course or an institution of higher education to which the student seeks to transfer has established a recency requirement that applies to that course, and;
- That minimum recency has elapsed since the student was awarded a grade in the course. The minimum recency may not be less than 36 months.

All enrollments, including the additional enrollment allowed as a result of the significant lapse of time, in an active participatory course in physical education, visual arts, or performing arts (families) counts toward the total enrollments. However, if a student has already exhausted the number of permitted repetitions, then an additional repetition due to significant lapse of time may be permitted or required by the District.

When a course is repeated due to a significant lapse of time, the District will disregard the previous grade and credit when computing a student’s grade point average.
