## EMPLOYMENT

### Summer Session Teaching Employment

1. The appointment of summer session teaching assignments will be the responsibility of the Dean of Extended Day. The Dean will determine the process to be followed for the filling of teaching positions, announcements for summer employment, and the final selection of teachers.
2. Preference will be given to regular full-time instructors who are members of the department.
3. When two or more regular full-time members of the department apply for the same position, the assignment will be given according to seniority of employment date at Citrus. This will begin an annual rotation system so that no instructor will be assigned summer employment twice until every qualified instructor in the department, in seniority rank, has had an equal opportunity for positions.

Adopted ..... 7/1/65
