Department's Name Officially Changes

Please note in all future campus publications: The name of the Security Department has now changed to Campus Safety. The reason for this change is because it better reflects the wide variety of functions performed by the officers and staff. The department not only provides security for the campus, but they are also designated as first responders in the event of an emergency. The department is responsible for providing safety and security to students, college staff and visitors. They are also responsible for protecting district property and facilities.
