Title 5 Sections 55060 et seq. and 55521;
Health and Safety Code Section 128058

The State of California Board of Registered Nursing requires the Associate Degree Nursing Program administrators and faculty to determine admission criteria within the CCCCCO Guidelines for ADN Program admission based on the applicable Education Code, Title 5, and Health and Safety Code Sections.

The program administrators and faculty will annually review admission criteria and analyze the data related to the pool of applicants and accepted students.

A nursing student who has already earned a baccalaureate or higher degree from a regionally accredited institution of higher learning is not required to complete any general education requirements that may be required for an associate degree. Instead, the student only needs to complete coursework necessary for licensing as a registered nurse.

The District shall consider all of the following when screening nursing students:

- Academic degrees or diplomas, or relevant certificates, held by the applicant;
- Cumulative Grade Point Average (GPA) in relevant course work;
- Relevant healthcare work or volunteer experience;
- Proficiency or advanced level coursework in languages other than English and
- Life experience or special circumstances of the applicant.
