USING ASSESSMENT TO ENGAGE AND SUPPORT STUDENT LEARNING

Presenters: Rebeca Rudd and Jamie Dingman

This workshop will provide participants with an opportunity to discuss the role of assessment, especially in the online or remote classroom. Basic principles of assessment design, practical strategies and examples will be shared. Participants will have an opportunity to design at least one assessment that can be used in their classroom. The workshop will include collaborating with peers during activities, sharing, and giving and receiving feedback. The goal is for participants to leave with the following:

• A deeper appreciation for the role of assessment in course design
• A variety of assessment strategies for use in their classes
• Examples of assessments designed to engage students and reduce time spent assessing student work

Friday, September 18, 2020
9 a.m. to Noon
