INTERESTS

I enjoy traveling, attending Clipper games, watching movies and theater, attending concerts, reading, spending time with family and close friends, bodyboarding, hiking local trails and yard work.

.....As a flight attendant, the idea of a three, four or five day international trip was common. To this day, I am still willing to take a quick trip such as the one I took in 2015 to see Ennio Morricone perform in Verona, Italy on the day I arrived. I was very tired but it was so worth it!

The world of travel has always intrigued me. Prior to my teaching and accounting careers, I worked as a flight attendant and a recruiter for Northwest Airlines where I was based in Honolulu and Los Angeles. This afforded me the opportunity to meet so many people (including my wife who was also a flight attendant for Northwest) and to travel to Australia, parts of Asia, and parts of Europe.....
