

CCSSE RESULTS

ABOVE AVERAGE	BELOW AVERAGE	NOT STATISTICALLY SIGNIFICANT BUT NEEDS ATTENTION
Job Placement Assistance	Students' perception of how often they use critical thinking skills	Use of active and collaborative learning
Satisfaction with Job Placement Assistance	Use of Student Support Services	Helping students cope with non-academic responsibilities
Satisfaction with Child Care	Use of computing and information technology for class	
Skippping Class	Family support for attending this college	
	Understanding people of other cultures	
	Contributing to the welfare of their community	

Kudos

- We are doing fine with finding students jobs
- We are doing a great job caring for their children

Potential Goals

- Encourage students to use critical thinking skills to their full potential
- Increase student awareness of the usefulness of the support services available to them
- Support increased use of technology for class work as 87 % of our students report having internet access at home
- Increase diversity awareness
- More support for service learning

Needs Further Investigation

- Use of active and collaborative learning
- Helping students cope with non-academic responsibilities
- Family Support for attending this college
