

Citrus College **IGETC** Transfer Pattern 2017 -2018

Citrus College General Education Pattern for the California State University or the University of California

Completion of all the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit you to transfer from a community college to a campus in either the California State University (CSU) or the University of California (UC) system without the need, after transfer, to take additional lower division, general education courses to satisfy campus general education requirements. Completion of IGETC does not guarantee admission, nor is it required for admission.

The IGETC is not advisable for all transfer students. If you are pursuing a major that requires extensive lower-division preparation you may be better served by taking courses which fulfill the CSU General Education-Breadth requirements or those of the UC campus or college to which you plan to transfer. Majors may include, but are NOT LIMITED to: Engineering, Business Administration Computer Science, Pre-professional schools and Sciences.

Certification: Be sure to request certification when requesting transcripts be sent to your choice of university or college. **All courses MUST be completed with grades of "C" or better.** Please consult with a counselor or advisor regarding the use of courses from other colleges or universities. Students who choose to use the IGETC pattern are expected to complete all of the requirements of the pattern before transferring to a UC or CSU campus. However, if a student is unable to complete one or two IGETC courses he/she may be eligible for partial certification. Students should consult with a counselor or advisor for details regarding this option.
